Experience

FULL-STACK DEVELOPER & TECH SUPPORT

October, 2024 - May, 2025

Rage Media Group, Area 11, Garki, Abuja

- Built and maintained responsive websites and internal tools using NestJS, React, Bootstrap, and PostgreSQL, improving performance and maintainability.
- Collaborated cross-functionally with designers, digital marketers, and content creators to launch 10+ client websites — honing strong teamwork, communication, and time management skills.
- Performed regular site maintenance, bug fixes, and performance audits, reducing page load times by 30% and increasing uptime reliability.
- Conducted on-page SEO optimization and structured content updates, leading to a 45% boost in organic search rankings within 3 months.
- Delivered technical support for installations, configurations, and updates — resolving 95% of internal teams' issues within 24 hours.
- Used WordPress and custom themes/plugins to deploy marketing sites with full admin control, cutting content update turnaround time by 50%.

FULL-STACK DEVELOPER

July, 2023 - January, 2025

ThriveON Wisdom, Pedro, Lagos

- Designed and developed full-stack web applications using Node.js/Express for APIs and Bootstrap/Tailwind CSS for responsive, accessible frontend UIs.

- Built intuitive user interfaces that enhanced engagement and reduced bounce rates by optimizing UX flows across mobile and desktop platforms.
- Managed deployments and conducted ongoing updates/patches, reducing downtime and maintaining high performance across production environments.
- Maintained and customized WordPress sites, integrating plugins and themes to meet diverse business needs with fast turnaround.
- Collaborated with stakeholders to understand requirements, demonstrating adaptability, analytical thinking, and clear communication in delivering tailored solutions.

IT SUPPORT/DATA ENTRY

June, 2022 - April, 2023

Olabel Farms Limited, Ilaro, Ogun

- Delivered technical support for hardware, software, and network issues — resolving 90% of tickets independently and improving system uptime for internal teams.
- Installed, configured, and maintained computer systems, peripherals, and common business applications like MS Office, Outlook, and QuickBooks.
- Provided hands-on training and guidance to staff on the use of Excel, QuickBooks, and email systems, enhancing digital confidence and reducing dependency on support.
- Managed & processed large datasets using Excel, ensuring data integrity & consistency.
- Performed data entry tasks with high speed and accuracy, meeting productivity and quality standards.
- Handled data entry and management tasks with a focus on accuracy and speed — consistently meeting quality benchmarks and productivity goals.

BACKEND DEVELOPER

February, 2021 - August, 2022

Zummit Africa Inc., Victoria Island, Lagos

- Architected and developed scalable backend systems using NestJS, with modular code structure and microservices architecture to support business-critical operations.
- Built robust API endpoints, controllers, and business logic to handle complex application workflows with minimal latency and high reliability.
- Led database modeling, query optimization, and schema migrations using PostgreSQL and Prisma ORM, improving data access performance and maintainability.
- Collaborated closely with frontend teams to ensure seamless API integration and rapid iteration, enhancing overall product delivery.
- Implemented secure JWT-based authentication and role-based access control, strengthening user data protection and regulatory compliance.
