2019 – 2021

SKILLS

- Javascript (Node.JS, Express, AJAX)
- Java (JavaFX, JSP, Servlets)
- MySQL
- PostgreSQL
- HTML5
- CSS3
- Dialogflow

LANGUAGES

English (Fluent)
Yoruba (Intermediate)

Innovative, task-driven professional with proven knowledge in software development. Equipped with vast problem-solving knowledge, creative and a strong communicator always eager to learn and improve based on users' feedbacks. Motivated to advance and expand my skill set through targeted mentorship and challenging projects.

WORK EXPERIENCE

Tutor

Logictech Vocational Training Institute,
Itori, Ogun State, Nigeria
November 2021 – January 2022

- Taught a small group of Polytechnic students during their SIWES (Student Industrial Work Experience Scheme) Programme. I taught them how to design websites using HTML and CSS, teaching them 4hours daily, 5 days a week.

PROJECTS

• Student Enquiry Bot

Built a web-based chatbot for to allow students/users make enquiries about their courses, lecturers, etc. as pertaining to their department all by interacting with the chatbot through texts.

Used HTML, CSS & JavaScript for the web frontend, MySQL for the database, Node.js and Express for the backend and Dialogflow for creating the chatbot.

• Restaurant Bot

Built a web-based chatbot for to allow customers make their orders by interacting with the chatbot through texts.

Used HTML, CSS & JavaScript for the web frontend and Dialogflow for creating the chatbot.
