PROFESSIONAL SUMMARY

Full-Stack Developer with 5+ years of experience building scalable, production-ready web applications using Node.js, NestJS, React, Next.js, and PostgreSQL. Strong background in RESTful API development, microservices architecture, JWT authentication, CI/CD workflows, and Docker-based deployments. Experienced collaborating with distributed teams across time zones, delivering secure and high-performance solutions aligned with business goals.

TECHNICAL SKILLS

- Languages: JavaScript, TypeScript, Python, HTML5, CSS3
- Backend: Node.js, Express.js, NestJS, Django, REST APIs
- Frontend: React.js, Next.js, Tailwind CSS, Bootstrap
- Databases: PostgreSQL, MySQL, MongoDB
- ORM & Data: Prisma ORM
- DevOps & Tools: Docker, Git, GitHub, CI/CD, API Integration
- CMS & SEO: WordPress, Technical SEO
- Methodologies: Agile, Scrum

PROFESSIONAL EXPERIENCE

Full-Stack Developer | September 2025 – Present
Atlas Natural, Antwerp, Belgium

- Contributed to the development of a custom ERP system, replacing a legacy spreadsheet-based workflow with a scalable web platform.
- Built full-stack features using Next.js, NestJS, PostgreSQL, and Prisma, supporting inventory management, order processing, and internal operations.
- Designed relational database schemas and implemented RESTful APIs to handle transactional workflows and business logic.
- Led data migration from the legacy system into PostgreSQL, ensuring accurate transformation, validation, and data integrity.
- Implemented frontend state management with Redux, improving data consistency and user experience across modules.

Full-Stack Developer & Technical Support | October 2024 – May 2025
Rage Media Group, Abuja, Nigeria

- Developed scalable internal tools and client platforms using NestJS, React and PostgreSQL.
- Designed and optimized RESTful APIs, reducing average page load time by 30%.
- Launched 10+ production websites in cross-functional collaboration using WordPress.
- Improved organic search rankings by 45% through technical SEO implementation.
- Resolved 95% of technical issues within 24 hours, maintaining high system reliability.

Full-Stack Developer | July 2023 – January 2025

ThriveOn Wisdom, Ottawa, Canada

- Built full-stack applications using Node.js/Express and React with Tailwind CSS.
- Developed RESTful APIs supporting business workflows and data-driven features.
- Optimized frontend performance across devices, reducing bounce rates.
- Managed CI/CD deployments and production updates with minimal downtime.
- Launched 4+ production websites in cross-functional collaboration using Wordpress.

Backend Developer | February 2021 – August 2022

Zummit Africa Inc., Lagos, Nigeria

- Architected backend systems using NestJS with modular microservices design.
- Designed PostgreSQL schemas and optimized queries using Prisma ORM.
- Implemented JWT-based authentication and role-based access control (RBAC).
- Delivered scalable enterprise-grade APIs within Agile sprint cycles.

Technical Support & Data Entry Officer | June 2022 – April 2023

Olabel Farms Limited, Ogun, Nigeria

- Resolved 90% of hardware and software support tickets independently.
- Managed and processed large datasets with high accuracy and integrity.

SELECTED PROJECTS

YiAiki – On-Demand Errand & Task Marketplace

www.yiaki.com

Tech Stack: NestJS, PostgreSQL, Prisma, React.js, Tailwind CSS, TypeScript, Web Socket

- Architected a full-stack marketplace platform connecting users with verified errand runners, including bidding and task lifecycle workflows.
- Implemented secure authentication, wallet/escrow transaction logic, and real-time messaging infrastructure.
- Implemented real-time and email notification systems to alert runners of new errands and keep users updated on task status changes.

Wisssh – Social Gifting & Wishlist Platform

wisssh.vercel.app

Tech Stack: Next.js, TypeScript, NestJS, PostgreSQL, Prisma, WebSockets,, Webscraping, Tailwind CSS

- Built a full-stack wishlist and gifting platform for sharing and discovering gift ideas.
- Implemented core features including wishlist creation, sharing mechanisms, and user interaction flows.
- Designed backend and frontend systems for performance, scalability, and smooth user experience.

EDUCATION

Higher National Diploma (HND) | 2019 – 2021

Computer Science, *D.S. Adegbenro ICT Polytechnic, Ogun, Nigeria.*

- GPA: 3.51 (Distinction)

CERTIFICATES

Introduction to IoT, CISCO Networking Academy | 2024

Jobberman Soft Skills Training | 2023
